Note: These MCSE and MCSA credentials do not have a recertification requirement. Instead, every year, you have the opportunity to re-earn the certification by passing an exam from the list of electives, demonstrating your investment in broadening or deepening your skills in that area. Each time you earn the certification, a new certification entry is added to your transcript. This process replaces the existing recertification requirement of taking a specific recertification exam every two years (MCSA) or every three years (MCSE) to prevent your certification from going inactive.
